

Athens MP06 course at MINES ParisTech
Non linear Computational Mechanics
March 13–17, 2017

Day	9h00-10h30	10h45-12h15	13h30–15h00	15h15–17h15
13	Plasticity (SF)	Plasticity (SF)	Plasticity (SF)	TP Plasticity (MM)
14	Finite Element (VC)	Finite Element (VC)	Contact (VY)	TP F.E. (VY)
15	Large deformations (MM)	Localisation (MM)	Training	Training
16	TMM interactions (MB)	Identification (MB)	Training	Training
17	Damage (MM)	Adaptativity, (re)mesh (YM)	Training	Presentations

- *From ONERA : Vincent Chiaruttini (VC)*
- *From Centre des Matériaux : Samuel Forest (SF), Matthieu Mazière (MM), Vladislav Yastrebov (VY)*
- *From CEMEF : Michel Bellet (MB), Youssef Mesri (YM)*
- *TP = Students working on workstations (or personal computers) on the same topic with live correction from the professor*
- *Training = Students working on workstations on different topics (group of 2)*
- *Presentations = Presentation by the students of their results (20 min for each group)*
